ONTARIO KNIFE DESIGNERS

THE PEOPLE THAT STAY ON THE CUTTING EDGE

JOE PARDUE

With My Dad (Mel Pardue) being a Knifemaker, I had the opportunity to learn the “Art of Knifemaking” at an early age. After years of apprenticing, dedication, and developing the skills necessary to make and design knives, I find that well designed utility tactical, high quality knives are my passion. My knives are tools to be used, and are designed with that in mind.

Joe Pardue

UTILITAC® KNIVES

WARRANTY

Once you purchase an Ontario Knife Company product, you can be assured we take your loyalty seriously. If any of our products fail due to faulty workmanship or faulty materials, we will replace it free of charge with the same item or with one of equal value. This limited lifetime warranty excludes products subjected to abuse, misuse or neglect. We value your business.

JUSTIN GINGRICH

Pictured from left to right: Justin Gingrich, Designer, and Nick Trbovich, Jr., President & CEO of Ontario Knife Co. Pictured in the jungle north of Bogotá, Columbia.

Ranger Knives was created and operated by blade smith Justin Gingrich. He served 10 years on active duty, in such honored units as the 3rd Ranger Battalion (92-96), 20th Special Forces Group (96-98) and the Ranger Training Brigade (98-01). Justin is also a police academy graduate. He also served in Iraq with a civilian security firm in 2005. For two months, Justin worked in post-Katrina, New Orleans providing much needed security for the private sector. He also instructs private security contractors, U. S. soldiers, State Department employees and civilians in the art of patrolling, demolitions, shooting and CQB techniques.

Justin designs all Ranger Knives branded product with the professional user in mind. His military background and hands-on experience qualifies him to assess the needs of emergency services, law enforcement and military professionals. This ensures the tool's ability to not only survive but to excel where others fail.

If you would like to discuss his designs further, you can chat with Justin on one of our industries most active forums — www.knifeforums.com.
