ONTARIO KNIFE COMPANY

*125th
Anniversary*

Dear Customers and Friends,

Welcome to the Ontario Knife Company's 125th catalog experience. The following pages highlight our past accomplishments, our new look and over 175 premium knives, tools, and accessories for which Ontario Knife Company is known. Most importantly, this catalog features nearly 20 of our newest products including our revolutionary gun tools, expanded hunting and bushcraft knives, and new high-grade kitchen cutlery.

It is often said that knives are among the world's oldest and most commonly used tools; Ontario Knife Company has a long and storied history of producing knives, including supplying the United States Armed Forces from World War I through the present day. In an age of increasing off-shoring and automation, Ontario Knife remains dedicated to our domestic workforce, our principles and our legacy of craftsmanship. While we constantly strive to improve our processes and tools, our manufacturing operation stays based in our team's combined centuries of knife-making experience here in upstate New York.

125 years is an amazing accomplishment and while we anticipate the next 125 years with excitement, I would like to take a moment to recognize the customers, employees, and fans of our products that have sustained us over the decades. From all of us at Ontario Knife Company:

Thank you for your loyalty, dedication and continuous support.

Sincerely,

Kenneth D. Trbovich
President and Chief Executive Officer
Ontario Knife Company
Franklinville, New York

New Products - Magnum Series

Introducing a new line of specialty products, the MAGNUM line features Ontario Knife's most overbuilt knives and tools. The first member of the MAGNUM series is our recently released Wyvern Axe, the civilian variant of OKC's military-only special operations crash axe. Named after the mythical beast it resembles, the Wyvern features industrial-grade 5160 steel and a heavy-duty micarta handle. *Manufactured in the U.S.A.*

8417 **Wyvern Axe**
 Overall Length - 18.9 in (48 cm)
 Blade Length - 4.35 in (11.049 cm)
 Blade Material - 5160 Carbon Steel
 Blade Hardness - 53-55 HRC
 Handle Material - Micarta
 Sheath - Leather Cordura

1905. Walter L. Burritt appointed President
1906. Payroll reaches 100 employees

New Products - Gun Tools

Ontario Knife Company is proud to present three revolutionary gun tools designed by cavalry scout Benjamin Bryant, SSG (ret) to quickly disassemble and reassemble the MK 19 automatic grenade launcher, the M-240B machine gun and the M2 machine gun. Built for gunners by a gunner, these innovative tools minimize the time required to field strip and service some of the line units' largest, most-complicated, and time-consuming weapons. The MK 19, M-240B, and M2 gun tools are manufactured and distributed exclusively through OKC. *Manufactured in the U.S.A.*

2100PC **MK19GT Powder Coated**
 Overall Length - 11.794 in (30 cm)
 Blade Material - 5160 Carbon Steel
 Blade Hardness - 53-55 HRC
 Handle Material - Bumper Impact Resistant PVC

2101PCM240BGT Powder Coated
 Overall Length - 7 in (17.8 cm)
 Blade Material - 5160 Carbon Steel
 Blade Hardness - 53-55 HRC
 Handle Material - Bumper Impact Resistant PVC

2102PC **M2GT Powder Coated**
 Overall Length - 7.675 in (19.496 cm)
 Blade Material - 1095 Carbon Steel
 Blade Hardness - 53-56 HRC
 Handle Material - Bumper Impact Resistant PVC

Also available:
2100, 2101 and 2102 Phosphate Coated alternative for all Gun Tools

1908. William B. Ensworth departs

New Products - Agilite

For every kitchen there is Agilite.

The new Agilite line was designed to be the most lightweight, durable, ergonomic, and advanced cutlery produced by Ontario Knife Company. Engineered down to the edge geometries by blade-master Dan Maragni, the Agilite knives are technically superior to almost any cutlery in the market. Featuring double injection heat resistant molded handles and Sandvik 14C28N fine carbide steel, the Agilite knives define premium cutlery. However, true to form for OKC products, they are affordably priced. *Manufactured in the U.S.A.*

2565 Agilite Steak Set (4 Piece)

Overall Length - 9 in (22.86 cm)
Blade Length - 4.5 in (11.43 cm)

Fixed Blades - Fortune Series

The Fortune Series is a line of aggressive tactical fixed knives, featuring grey powder-coated drop point blades and G10 handles with alternating black and blue layers. The handles are checkered to ensure a stable grip and the knives sit neatly into fitted plastic sheaths that incorporate an adjustable clip that fits into almost any rapid deployment anatomy. Designed to be unobtrusive with a low-profile, the average package weighs only nine ounces. Suitable for offensive, defensive, and utility purposes, this line lives up to the maxim that fortune favors the bold. *Manufactured in the U.S.A.*

8743 Nona

Overall Length - 7 in (17.8 cm)
 Blade Length - 2 in (5.1 cm)
 Blade Material - 420 HC
 Blade Hardness - 53-57 HRC
 Handle Material - G10
 Sheath - Injection Molded Plastic

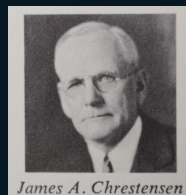

8747 Decima

Overall Length - 8 in (20.3 cm)
 Blade Length - 3 in (7.6 cm)
 Blade Material - 420 HC
 Blade Hardness - 53-57 HRC
 Handle Material - G10
 Sheath - Injection Molded Plastic

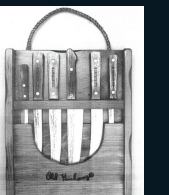

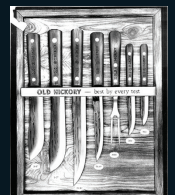

8727 Morta

Overall Length - 9 in (22.9 cm)
 Blade Length - 4 in (10.2 cm)
 Blade Material - 420 HC
 Blade Hardness - 53-57 HRC
 Handle Material - G10
 Sheath - Injection Molded Plastic

1923. Walter Burritt dies and James A. Chrestensen is appointed President

1924. Old Hickory line is introduced

Fixed Blades - Ranger Series

The Ranger line is a set of combat and survival knives and tools designed and built for combat deployment in the most unforgiving terrain on the planet. All Ranger knives feature a thick blade made from robust carbon steel, a durable micarta handle, and a MOLLE compatible sheath. *Manufactured in the U.S.A.*

Fixed Blades - GEN II Series

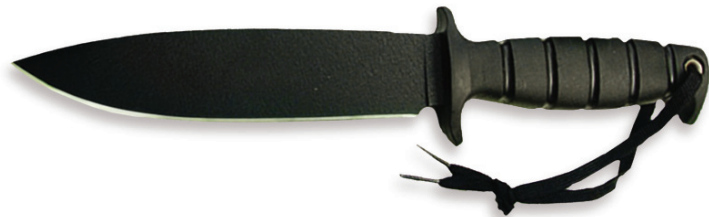

The newest generation of SPEC PLUS products is the GEN II series of outdoor survival knives. Designed for function by blade-master Dan Maragni, these full-tang historically based knives are water-jet-cut from robust 5160 steel, the steel-that-cuts-other-steel. Like other knives in the SPEC PLUS family, the GEN II products features a black textured powder coated blade, an ergonomic Kraton® handle, and a black tactical sheath. *Manufactured in the U.S.A.*

8541 SP41 Boot Knife

Fixed Blades - Black Bird Series

The award winning Black Bird series was designed by custom designer and sheath-maker Paul Scheiter for maximum performance with an elegant simplicity and the signature elements of a center point blade, straight back profile, and flat heel for maximum utility. Featuring high quality 154 CM stainless steel and a black micarta handle, the Black Bird variants come in either a silver finish or with a special operations capable (SOC) powder coating for added durability. All Black Bird models include a MOLLE compatible sheath. *Manufactured in the U.S.A.*

7500 Black Bird SK - 5

Overall Length - 10 in (24.5 cm)
Blade Length - 5 in (12.7 cm)
Blade Material - 154 CM
Blade Hardness - 58-60 HRC
Handle Material - Micarta
Sheath - Nylon

7500PC Black Bird SK - 5 Noir

Overall Length - 10 in (25.4 cm)
Blade Length - 5 in (12.7 cm)
Blade Material - 154 CM
Blade Hardness - 58-60 HRC
Handle Material - Micarta
Sheath - Nylon

"Maximum Performance. Pure and Simple."

The Black Bird is comfortable to use, has ideal cutting geometries, and is easy to carry – all of the things necessary for the most demanding wilderness survival tasks."

-Paul Scheiter

Folding Blades - OKC International

Designed in the U.S.A. but globally sourced for a great value, the OKC International products are designed to be durable, highly functional, and affordable. The hunter pack features a fixed blade with gut hook and a folding knife, both with G10 handles and 7CR17 stainless steel blades in a black nylon sheath. The camo folder features an aluminium handle with rubberized grip and a 7CR17 stainless steel blade. OKC's popular Black TAC has a lightweight, textured aluminium handle with a 440 stainless steel blade.

Tools - Strap Cutters

When your life or the lives of others are in the balance, make sure you choose the right tool to get the job done. Ontario Knife Company's combat-deployed strap cutters feature either stainless steel or titanium nitride edges that cut through belts like butter, rugged 6061-T6 anodized aluminium bodies, and a MOLLE compatible nylon sheath. OKC's strap cutters have the motto: "if there's trouble, send me."

Tools - Gun Tools

Ontario Knife Company is proud to present three revolutionary gun tools designed by cavalry scout Benjamin Bryant, SSG (ret) to quickly disassemble and reassemble the MK 19 automatic grenade launcher, the M-240B machine gun and the M2 machine gun. Built for gunners by a gunner, these innovative tools minimize the time required to field strip and service some of the line units' largest, most-complicated, and time-consuming weapons. The MK 19, M-240B, and M2 gun tools are manufactured and distributed exclusively through OKC. Manufactured in the U.S.A.

Cutlery - Old Hickory

First introduced in 1924, the Old Hickory knives are the most venerable product line still in active production. The Old Hickory knives feature a hardwood handle secured with brass compression rivets to 1095 carbon steel blades that are both very sharp and capable of retaining an edge better than most stainless knives. Proudly manufactured with artisan processes for over 90 years, Old Hickory has stood the test of time and is proven to be the best carbon steel kitchen cutlery sold today. *Manufactured in the U.S.A.*

Warranty Information

Warranty: Ontario Knife Company® prides itself on 125 years of quality manufacturing. OKC products manufactured in the United States of America are backed by a limited lifetime warranty; if any of our Made in the U.S.A. products fail due to faulty workmanship or faulty materials, we will repair or replace it free of charge with the same item or an item of equal value. The workmanship and materials of OKC International and globally sourced products are backed by a one year limited warranty. All warranties exclude products subject to abuse, misuse, or neglect.

Designers

OKC and OKC International New Product Development Team

The new product development team at OKC is a cross-functional team that includes department heads from the marketing & sales, government sales, project management, engineering and operations teams; it is responsible for the end-to-end launch of new products from conceptualization through commercialization. OKC's team manages the development of all products, from in-house designs to designer supplied concepts and OEM initiatives.

Dan Maragni

OKC Blademaster-In-Residence

Dan Maragni is a master bladesmith with 40 years of knife-making experience as a custom designer and with Cold Steel and OKC. An expert in knife materials, heat-treating, and edge geometries, Mr. Maragni blends historical knife concepts with modern engineering techniques, ergonomics, and the anatomy of fighting into his designs. Mr. Maragni is the genius behind a large number of OKC's products including the GEN II series and the Agilite line.

Joe Pardue

Custom Designer and Inventor

Joe Pardue is the son and former apprentice of legendary knife-maker Mel Pardue and an accomplished custom designer and inventor in his own right. Mr. Pardue envisions knives as tools that are meant to be used, and his top selling folding knives are designed with that in mind. In addition to creating the Utilitac series, Mr. Pardue is the inventor of Ontario Knife Company's revolutionary new T.A.O. assisted opening mechanism.

Paul Scheiter

Designer and Sheath-maker

Paul Scheiter is the founder of the custom sheath company Hedgehog Leatherworks LLC and a vocal advocate for the advancement of the Bushcraft community and its skill set. Mr. Scheiter is also an award winning knife designer for Ontario Knife and the creative force behind the Black Bird Series, which embodies Scheiter's personal values of function and simplicity. In 2011, Ontario Knife Company's Black Bird SK-5 won the "Best of the Best Hunting Gear" award from Field and Stream Magazine.

Benjamin Bryant

Inventor

Benjamin Bryant, SSG (ret) is a 20-year veteran of the United States Army, where he served as a cavalry scout and gained extensive, first-hand experience operating automatic weapons. After leaving the service, Mr. Bryant invented a series of ground breaking, heavy-duty gun tools designed to rapidly disassemble and reassemble the MK 19 automatic grenade launcher, the M2 machine gun, and the M-240B machine gun. These gun tools are exclusively produced and distributed by Ontario Knife Company.
