SOG HISTORY

# THE KNIFE THAT STARTED IT ALL.

Our story begins in Vietnam, where members of a highly classified US special ops unit — known as MACV-SOG — carried a unique combat knife into the jungle on covert missions. Years later, in 1986, that knife inspired a young designer named Spencer Frazer to found SOG Specialty Knives. His mission: to reproduce the original SOG Bowie knife and pay tribute to the special ops unit that created it. What began as a single commemorative model soon became a full line of innovative tools — field-proven by US Special Forces, even honored as the Navy SEAL knife of choice. Today, SOG knives are carried with confidence into the most demanding situations. Forged out of tradition, hardened in the field, honed for you.

*So whether you're protecting others or leading an epic hunting expedition, tackling one of life's everyday challenges or facing your most extreme conditions yet, lead the way with SOG.*

**TAKE POINT.**

Born of the military, SOG has accompanied elite US Special Forces and law enforcement professionals on missions for decades. With a well-earned reputation for engineering, precision and quality, SOG continues to make knives and tools trusted the world over by the best of the best. So whether you're answering the call of duty or arming yourself with innovation, lead the way with SOG.

## Spec Elite Auto

*Just good enough* and *too fast* are not words in our vocabulary, and the new Spec Elite Auto is no exception. These knives employ our state-of-the-art auto mechanism, built-in safety, reversible low carry clip, and stout construction – making them ideal for LE and Military.

## SOG-TAC Auto

The SOG-TAC is big but relatively slim and is specifically designed for action. Features an aluminum handle, safety lock, reversible bayonet-style clip, and a tactical tanto blade.

## Trident Folder

The Trident Folder employs SOG Assisted Technology for fast opening, with an Arc-Actuator to lock stronger and release easier. Also includes built-in safety and a patented handle groove to cut seatbelt, paracord, fishing line, etc., while the knife is closed.

## Aegis

The Aegis line of premier folders is equipped with SOG Assisted Technology for fast opening. Includes reversible pocket clip, built-in safety, and checkered DigiGrip handle for improved grip.

## SOG Bowie 2.0

Based on the original SOG Bowie, but updated with a modern feel and materials. Features a sculpted crossguard, epoxied leather washer handle, deep hollow grinds, TiNi coating, and faceted tip for that unmistakable SOG signature.

## Vulcan

The Vulcan is a formidable folding knife, featuring an Arc-Lock locking mechanism, steel liners and glass-reinforced nylon handle, tanto blade with kick deployment, and a reversible pocketclip.

## Pentagon Elite II

The Pentagon Elite II is impeccably balanced and features ergonomic glass-reinforced nylon handles, ambidextrous slotted thumbstuds, bead-blasted blade, Arc-Lock locking mechanism, reversible clip, and shark tooth tip for increased point strength.

## Pentagon

The Pentagon offers the instant choice between a serrated or straight edge for cutting options, as well as an aggressively checkered handle to provide confident gripping and sensational balance.

## Growl & Snarl **NEW**

These Jason Brous-designed knives explore "functional fantasy" in various forms, featuring 9CRMoV stainless steel blades and unique handles, with a brass knuckle inspired handle on the Snarl, and a linear design molded plastic handle on the Growl.

## Tactical Tomahawk

Based on the Vietnam tomahawk, the Tactical Tomahawk is a versatile tool for breaching operations, excavation, obstacle removal, extraction, and other utility applications, making it a universal tool for modern man.

## Voodoo Hawk

The Voodoo Hawk is a combination of our Tactical Tomahawk and FastHawk, featuring an extended cutting head, smaller compact glass-reinforced nylon handle, and metal butt cap. Includes Nylon carry sheath.

## EOD PowerLock 2.0

Our bestselling PowerLock, now with Explosive Ordinance Disposal components! Features compound leverage gears for fast opening and added gripping strength, as well as a multitude of EOD-centric components, like a C-4 Punch, blastic cap crimper, and hardwire cutters.

## SEAL Pup Elite & SOG Ops

An evolution in fixed blades, the SEAL Pup Elite and SOG Ops feature stylish blade shapes, large thumb scallops for additional control, and perfectly balanced glass-reinforced nylon handles for instinctive movement.

Engineered with precision and built to perform, SOG knives and tools are field-proven and trusted by hunters who demand the best. Our full line of hunting knives and tools are honed for your hunt and built expressly for you, with superior styling and innovation. Take your hunt to a whole new level.

### **Twitch XL Wood Handle NEW**

The Twitch XL is now with a beautiful rosewood handle! The Twitch XL includes SOG Assisted Technology with a blade kick for fast opening, a reversible low-carry pocket clip, and a lock-back locking mechanism with safety switch.

### **Twitch II Wood Handle NEW**

The Twitch II, one of our most popular everyday carry knives, is now available in a hunter version as well. The Twitch II includes SOG Assisted Technology, along with a blade kick for fast opening, a low-carry pocket clip, rosewood handles, and a lock-back locking mechanism with safety switch.

### **Huntspoint S & Huntspoint B NEW**

The Huntspoint series was developed specifically with hunters in mind, with skinning and boning blade shapes and flat grind blades for ease of use. Includes leather sheath, also available in glass-reinforced nylon handles.

# HUNTING

## Visionary II

The SOG Visionary II features the same spectacular blade shape as the Spec Elite, with a finely textured glass-reinforced nylon handle that is both lightweight and ergonomic. Features an Arc-Lock locking mechanism for quick opening, superior strength, and ambidexterity.

## Aura Hunting

The Aura Hunting features a high impact and tough glass-reinforced nylon handle over molded with rubber for non-slip comfort. Also includes an integrated crossguard and guthook in the flatground blade. Best of all, a carbide sharpener unscrews from the back of the handle!

## Revolver Hunter

The Revolver Hunter offers a unique rotating blade and saw combination for two tools in one. Simply press the release button found in the handle and switch between the two at will! Also features a strong glass-reinforced nylon handle with stainless steel liners and a nylon carry sheath.

## BladeLight Fixed Blade & Folder

This is a game changer! Employing 6 LEDs molded directly into the GRN handle on either side of the knife blade, the BladeLight provides shadowless light while cutting or as a flashlight when closed or in the sheath. The BladeLight is IPX-7 rated for water resistance to full immersion and gives off 25 Lumens (fixed blade) or 37 Lumens (folding) of bright white light.

EVERYDAY CARRY

EVERYDAY CARRY

Honored as the Navy SEAL knife of choice and refined for everyday applications, SOG offers a full line of high-quality knives and tools that feature superior styling and innovation. Forged out of tradition, hardened in the field, and honed for you. So no matter what your task or where you take them – from your front door to the front lines – SOG is your tool of choice.

### Access Card 2.0

The Access Card can take you anywhere! It's the thinnest and lightest Arc-Lock locking mechanism knife on the market, so thin it can fit in a wallet! Features full stainless steel construction and a pocket/money clip.

### SlimJim NEW

The SlimJim is the slimmest assisted opening knife in the world, and it shows! Features full stainless steel construction, SOG Assisted Technology for fast opening, lock-back locking mechanism, a lock safety switch, reversible pocket clip, and now available with a tanto blade.

### Mini Aegis

The Aegis Mini features a full-bodied blade, SOG Assisted Technology for fast opening, reversible pocket clip, built-in safety, and checkered DigiGrip handle for improved grip.

### Flash I & Flash II

A SOG bestseller, the Flash series has proven to be a fully capable workhorse for day-to-day activities. Features SOG Assisted Technology for fast opening, an Arc Actuator locking mechanism, lock safety switch, textured glass-reinforced nylon handles, and a reversible pocket clip.

## Tomcat 3.0

The Tomcat 3.0 is the successor to the first SOG folding knife. Features easy one-hand opening and ambidextrous Arc-Lock locking mechanism, Kraton rubber handle with stainless steel liners, and a black nylon carry pouch.

## Arcitech

The Arcitech is a high-end folding knife featuring the easy one-hand opening and ambidextrous Arc-Lock locking mechanism, san mai blade steel, Abalone thumb stud, reversible pocket clip, and jugged bone handle with Titanium bolster and liners.

## Pocket PowerPlier

SOG's Pocket PowerPlier is packed with essential tools that include pliers/grippers, wire cutters, partially serrated blade, small/large screwdrivers, Phillips screwdriver, three-sided file, can opener, bottle opener, awl, rulers, lanyard and heavy duty nylon pouch.

## PowerDuo

The PowerDuo combines a pocket knife with the versatility of a multi-tool. Features compound leverage for increased gripping power and one-hand opening, full-sized blade, Phillips screwdriver, bottle opener/flat screwdriver, can opener/small flat screwdriver, toothpick and tweezers. Includes nylon sheath.

## SlipTron NEW

The SlipTron features full stainless steel construction and a slip joint locking mechanism that's heavy duty, yet light enough to carry with you everyday.

Preferred by US Special Forces teams and field-proven by the best of the best, SOG is ideal for anyone preparing to face nature's most extreme conditions. With a full line of knives and tools that are engineered with precision and built to perform, you can carry your SOG with confidence knowing it's ready to rise to any occasion, just like you.

## BadAxe Backcountry **NEW**

The BadAxe Backcountry features a raw-forged steel axe head, glass-reinforced nylon handle with solid fiberglass core, and a compact saw with patented finger guard that stows conveniently in the handle.

## BadAxe Base Camp **NEW**

The BadAxe Base Camp features a solid raw-forged steel head and neck, with a thermal molded rubber handle and molded nylon sheath.

## SOGfari Machete

The SOGfari machete includes carbon steel blade with saw back, kraton rubber handle, and nylon sheath. Available in 3 sizes.

## Tangle **NEW**

The Tangle features full tang construction, paracord wrap, and a flat grind drop point blade. Includes molded nylon sheath.

## Fling **NEW**

The Fling features full tang construction with a paracord wrap. Perfect for target practice! Includes nylon sheath.

INDUSTRIAL

# INDUSTRIAL

SOG doesn't settle for being the proper tool for anything, we seek to be nothing short of the best. Forged, hardened and honed, our full line of knives and versatile multi-tools is engineered with precision and built to perform. So whether you're leading a crew on a worksite or tackling a weekend "to do" list, SOG gets the job done right.

## Dark Energy 214A & 247A

Dark Energy flashlights feature a Cool White Cree R5 LED bulb with an Optical-grade Polycarbonate Lens and textured aluminum reflector housed in a heavy duty aluminum body. IPX-7 rated for water resistance to full immersion in up to 1M for 30 minutes.

## PowerLock

The PowerLock was the first SOG multi-tool to offer patented Compound Leverage gears to generate twice the gripping power and fast one-handed opening. Also includes half-serrated knife, saw, screwdrivers, awl, file, can & bottle openers and more.

## PowerAssist

The PowerAssist builds on the SOG multi-tool platform by including two assisted opening blades, available when the tool is closed! Also includes compound leverage gears for one-handed opening and twice the gripping strength, plus assorted components.

## Contractor Series

The Contractor series is designed specifically for tradespeople, including electricians, handymen, and for those who take pride in a job well done. Modernizing traditional patterns with patent pending holes/notches for stripping wire, aggressive aluminum/G10 grips, as well as razor sharp blades.
