THE HOBBIT™

AN UNEXPECTED JOURNEY

The *Hobbit: An Unexpected Journey* follows the journey of *Bilbo Baggins*, who is unexpectedly swept into an epic quest to reclaim the lost Dwarf Kingdom of Erebor. Approached by the Wizard *Gandalf the Grey*, *Bilbo* finds himself joining a company of 13 dwarves led by the legendary warrior, *Thorin Oakenshield*. Their journey will take them through treacherous lands swarming with Goblins & Orcs, deadly Wargs, & Sorcerers. Though their goal lies to the East amidst the wastelands of the Lonely Mountain, they must first escape the goblin tunnels, where *Bilbo* meets the creature that will change his life forever... *Gollum*. Here, alone with *Gollum*, on the shores of an underground lake, the unassuming *Bilbo Baggins* not only discovers depths of guile and courage that surprise even himself, he also gains possession of *Gollum's* "precious" ring that holds unexpected and useful qualities... A simple gold ring that is tied to the fate of all *Middle-earth* in ways *Bilbo* cannot begin to know.

Orcrist The Sword of Thorin Oakenshield™

United® Cutlery, the industry leader in fine motion picture collectible weapon replicas, has meticulously created these detailed recreations of the actual filming props built by Weta Workshop of New Zealand and used in the motion picture, *THE HOBBIT: AN UNEXPECTED JOURNEY*. In bringing the weapons of *Middle-earth* into the real world, close attention to detail was a top priority, and no effort was spared to make these replicas as accurate as possible.

A legendary Elven blade from the First Age of *Middle-earth*, *Orcrist* is the sword of the Dwarven warrior *Thorin Oakenshield*. It features a curved leaf shape on one side, and a straight edge on the other, a fitting design for a blade meant to cleave Orcs and Goblins. The grip is crafted in the form of a dragon tooth, and adorning the pommel is an emblem of an ancient Elven house, featuring four embedded jewels. Adorning the blade and guard are Elvish inscriptions that translate as "The Serpent's Tooth", and *Orcrist*, which translates as "Goblin-cleaver".

OFFICIALLY LICENSED REPLICAS FROM THE HOBBIT™ AN UNEXPECTED JOURNEY

Staff of the Wizard Gandalf™

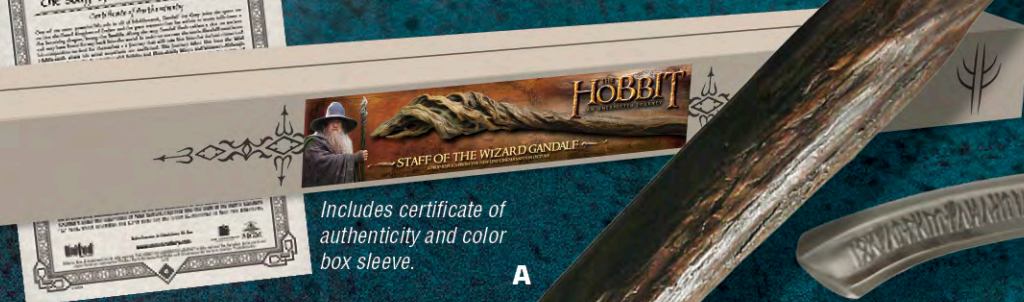

United® Cutlery, the industry leader in fine motion picture collectible weapon replicas, has meticulously created these detailed replicas of the actual filming props built by Weta Workshop of New Zealand and used in the motion picture, *THE HOBBIT: AN UNEXPECTED JOURNEY*. In bringing the weapons of *Middle-earth* into the real world, close attention to detail was a top priority, and no effort was spared to make these replicas as accurate as possible.

Belonging to one of the most powerful Wizards in all of *Middle-earth*, *Gandalf the Grey's* staff appears to be a natural piece of wood, but the staff of a Wizard is something far more. Within the staff crown, the wood has grown around a hollow, white lattice-shaped bulb that holds a great power. At *Gandalf's* command, he can cause the crown to illuminate and light his way at night, or to spark a blue flame to ignite fire. The staff is also imbued with a great strength, allowing *Gandalf* to shatter stone with one strike.

Glamdring™ The Sword of Gandalf™ the Grey

Glamdring is an exquisite example of the height of Elven swordcraft, and a weapon befitting an Elvenking. Long lost in a Troll Hoard, the Wizard *Gandalf* recovered this ancient sword and claimed it as his own. He wielded *Glamdring* throughout the Quest for Erebor, using it against the Goblins of the Misty Mountains, and it remained his primary weapon until the end of his days in *Middle-earth*. The name *Glamdring* means "Foe-Hammer", and engraved into the cross guard are ancient Elvish runes that translate as "Turgon, King of Gondolin, wields, has and holds the sword *Glamdring*, foe of Morgoth's realm, hammer to the Orcs."

As the creator of some of the most widely recognized knives in the industry today, Gil Hibben's knowledge and 50 years of experience are unprecedented in the world of custom knifemaking. He is the creator of the popular Rambo™ III bowie and Rambo™ IV machete, each specially made for the Sylvester Stallone films, and knives for other Hollywood productions and personalities, such as John Wayne, Elvis Presley, Steve McQueen, and Steven Seagal. He created the Klingon blades for the "Star Trek Experience" in Las Vegas, and is the "Official Klingon Armourer" for Paramount Pictures.

Gil produced knives for our servicemen to use in Vietnam, and his first-hand experience as an Alaskan hunting guide, throwing knife expert, and sixth-degree black belt in Kenpo Karate have contributed to his creating some of the most popular knives of the 20th Century. Mr. Hibben was inducted into the Knife Throwers Hall of Fame in October 2003 for his many contributions to throwing knife designs. United® Cutlery is proud to offer production knives based on Gil's custom designs. This top-selling brand consists of throwing knives, hunting knives, personal protection knives, and the most collectible line of production fantasy available today.

The classic 14" AUS-6 stainless steel blade features a crisp, mirror finish. Included is a genuine leather sheath with brass-plated star and Hibben Knives® logo.

This knife is an actual copy of a typical Bowie knife of the 1830s. The story of the Bowie began on a sandbar of the Mississippi River above Natchez, Miss. on September 19, 1827. A brawl that eventually involved Col. James "Jim" Bowie, who, having been shot and stabbed, successfully defended himself, killing Major Norris Wright and wounding Alfred Blanchard with what onlookers described as a "large butcher knife." This and other tales of Bowie's abilities with a knife led to the widespread popularity of what became known as the "Bowie" knife.
